Summer@BSME is a six-week summer program in Budapest for those interested in the learning and teaching of secondary mathematics. Participants take a variety of courses in mathematics education and complete a week-long field experience. Come experience the Hungarian approach to learning and teaching of mathematics—which emphasizes problem solving, creativity, and communication—as well as the rich and vibrant culture of Hungary.

OVERVIEW

- Mathematics education courses that focus on the Hungarian approach.
- Field experience at a mathematics camp for secondary students.
- Instructors are Hungarian teacher scholars who actively teach grades 5–12.
- Small, lively classes taught in English.

See our website for program dates bsmeducation.com
A member of the European Union, Hungary developed its distinctive culture over a thousand-year history. Budapest is the capital of Hungary with a population of 2 million. It is a beautiful historical city, with one of the most vibrant cultures in Europe. Famous for its graceful bridges, green parks, and delicious food, Budapest is a remarkably safe and pleasant place.

Application information, current tuition rates, and living cost estimates are available at www.bsmeducation.com. Early application is encouraged.
